Dear my beloved parent, first I greet you. Hello! How are you. Me ,my news is good. In the family, we are four persons and we are all in good health. I, my father, my mother and my sister.

Here, we are in the period of automne. It rains because it rains in good way; we are cultivating different crops which include beans, maize and peas as well as other crops suitable to the season.

I am at school; I study well at saint stephanus Mushubi senior secondary school. In the last academic year, I was in senior one. The first term I had 71.9% marks. The second term, I obtained 67.31% marks. The third term I obtained 70.9% marks. The whole year, I obtained 70.1% marks. I was the third. I am in senior two and I hope without doubt that in senior two I will obtain good marks.

I thank you for you incessant support to me which helps me to study well and to obtain school materials on time which include notebooks, pens, cloth and shoes and it helps me to pay health insurance.

I end by wishing you Merry Christmas and happy New Year 2025. Have blessing and peace in that year.

Your child Clement MANISHIMWE
